Dear Doctor,

Ilizarov technique as you know has intense scope. It is still in the process of continuous evolution and its scope is being extended to different clinical situations.

Aim of this course is to teach the beginner the basic frame construction of tibial and femoral fractures, non-union as well as LRS application. We have highly experienced faculty in this field. This course will be highly interactive with limited number of delegates. We are also having bone model workshop under close faculty supervision and Live surgery of ILIZAROV frame fixation in Non Union Tibia.
